Charlotte/Douglas International Airport

At Charlotte/Douglas International Airport, you'll find a unique blend of business and pleasure, with everything designed to make air travel as convenient and enjoyable as possible.

The airport, on the city's west side, ranks as the 16th largest nationwide in terms of total operations, serving more than 25 million passengers each year. The airport employs more than 15,000 and contributes \$10 billion economic impact to the Carolinas each year.

The facility averages more than 600 daily departures and offers non-stop service to 117 destinations. Most are provided by US Airways, which operates its largest hub at Charlotte, but several other major airlines and related commuter airlines also serve the airport. Charlotte/Douglas offers a variety of direct international flights including Munich, Frankfurt, London, Toronto, Mexico City and several destinations in the Caribbean.

Charlotte/Douglas has now completed a construction project to make certain that today and tomorrow's passengers are well served. A new 3,000-space parking deck recently opened. The deck encompasses five levels and is located in the northwest corner of the Airport's Daily Parking Lot. With the opening of the deck, the airport now has over 20,400 spaces available for public use. A new fourth runway is currently under construction.

For more information on Charlotte/Douglas International Airport, check the Web site at www.charlotteairport.com or call 704-359-4027.
