Area Code Overlay

Due to incredible growth in the number of telephone lines, the Charlotte area has been assigned a second area code, 980. The area code overlays, or exactly matches, the existing 704 area code. The two area codes mean that you must dial the entire 10-digit number – that is, area code 704 or 980, plus the seven-digit phone number – in order to reach a Charlotte-area number.
